

MONTANA WETLAND STRATEGY

Public Education and Professional Training Working Group Directions

Strategic Direction #1: The Montana Wetland Council (MWC) will increase efforts and direct resources toward improving the general public's knowledge of, appreciation for, and action taken to protect the valuable functions wetlands and riparian areas perform.

Ideal Outcome: Montanans of all ages understand the value and function of wetlands and riparian areas, and have access to information that enables them to act effectively to conserve and restore these ecosystems

Strategic Direction #2: The MWC will provide training and information for public and private resource professionals.

Ideal Outcome: Public and private resource professionals are knowledgeable, trained, and prepared to integrate wetland and riparian conservation, management, and restoration into their work.

Working Group Chair: Vacant
